Now I'd like to introduce Paul Cronin who will give you a brief overview of Riordan today...

Now I'd like to introduce someone who is improving the "gift giving" options at Riordan. Our planning committee specifically asked him to come tonight to give us some information about the new programs. We all consider him a friend and a great Riordan resource...

In 2014 he was running a parish in Hayward!

Excerpt from a National Catholic Reporter 2014 article:

"Steve Mullin could not be mistaken for anything other than the layman he is. But he is a layman like only a few hundred others in the American church. As the parish life director of All Saints in Hayward, Calif., his name is atop those of the two assigned priests in the weekly bulletin ...If you ask any All Saints parishioner who their pastor is, it is Mullin, married and the father of four children."

We asked Steve to briefly explain some new Riordan “gift” opportunities

- Some of our classmates wanted to joined the Fennelly Society
- Some of our classmates wanted to start Endowments
 - Personal note: Steve helped me use an IRA QCD to create an Endowment for Riordan’s Engineering program...I was even asked to teach a 1 hour “Ohm’s Law” Class for Freshmen Engineers earlier this month.

*If any of this sounds interesting...talk to Steve...he’s a
GREAT guy...if your not interested...no problem...*

Steve Mullin– Riordan’s Director of Major Gifts and Planned Giving

77. Nov. 15, 2016: Napa Valley Bike Ride as told by Jim Service: "Tom, Bob f. Glenn and Jim assembled at the Yountville park at 10:30 and embarked, stalwart and unafraid on our journey. We crossed the highway and up into the veterans' hospital and made a circuit of it. Upon exit, Tom led us north and into the Domaine Chandon winery and out the other side into the vineyards and small estates. We then headed back to Yountville park and continued past on Yount mill road that winds around to the north. We took a look at the tunnels they dug for Piazza del Dotto. After discussion about whether the olives trees were transplanted or not, we headed back to the cars at the park and ate our lunches there. After disposing of our refuse in a responsible manner, we walked down a block and went tasting at Jessup cellars. Excellent wines and perhaps the highlight was a zinfandel port. Tom is a member. we then drove to Artesa where Tom is, again, a member. Some excellent wines and a private tour of the barrel warehouse and the bottling room. We parted and headed for home around 3:30 after a very good day. My new personal motto: any port in a storm." Tom, Bob Frey, Glenn, and Jim Service, 12 mile bike ride and obviously a lot of wine and chocolate.
78. Dec. 19, 2016: We visited the U.S.S. Hornet Aircraft Carrier in Alameda. Among other things we saw the Apollo Moon Landing displays, engine room and boilers, hanger deck, flight deck, and island with its command and air ops sections. 5 hours, 12 decks, great docents, plus Bill's carrier tales. Beers were at Quinn's Lighthouse in Oakland. Bob Frey, Tom, Bill, Greg, Jim Service, and Bob O'D

Class of '64 hiking group Trips 79 thru 91 in 2017

79. January 30, 2017: Bike Ride in Alameda, from Shoreline Dr. and Grand St. south to Bay Farm Island, then back into Alameda for a tour of its architectural heritage. (2000 + homes and buildings predate 1905!) 17.3 miles, beers at Jack London Square and special bonus tour of FDR's Presidential Yacht, "Potomac". Tom, Bob Frey, Bill, Jim Reed, Jim Service, Greg, Bob O'D
80. Feb. 23, 2017: San Francisco walk from Sutro Visitor Center at Land's End to the Golden Gate Bridge, including Mile Rock Beach, Baker's Beach and assorted gun emplacements. We had beautiful weather and walked 5.5 miles and many staircases. Beers back at the Beach Chalet Tom, Jim Stack, Jim Petersohn, Jim Service, Jim O'D, Joe, Bob O'D
81. March 30, 2017: Bike ride in Sacramento on the American River Parkway from Watt St. Bridge to Nimbus Fish Hatchery and Dam and Lake Natoma. Lunch at the Sacramento State Aquatic Park and beers and dinner in Davis at the Three Mile Bar. 28 mile ride, mostly level with beautiful spring color and nice wildlife viewing. Tom, Mike Edwards, Glenn, Jim Stack, Bob Frey, Bill Provence and Bob O'D
82. April 10, 2017: City hike around the Mt. Sutro trails and a visit to the Sutro Tower site (977 ft. tower, 1,811 ft. total above sea level). We had lunch at the Golden Gate Park Bandstand grounds, and then celebrated the 50th Anniversary of the "Summer of Love" (1967) with an historic walk through the Haight Ashbury District. It was groovy man! The highs (pardon the pun) included: Jefferson Airplane House, Grateful Dead House, Hells Angels Headquarters, Janis Joplin House and the "Drogstore" (the City permit agency in the "60's would now allow "Drugstore" to be used in the name). It is now called "Magnolia" and that is where we had our beers. It was far out. We almost had a contact high in the area of Buena Vista Park too, but all arrived home safely, with no arrests. 6.2 miles, Tom White, Doug Falco, Jim Service and Bob O'Donnell.
83. May 10 – 12, 2017: Yosemite Trip: We brought bikes to Yosemite Valley for a two night stay at Curry Village (now called Half Dome Village because of the Delaware North lawsuit). Highlights included Mirror Lake, Vernal, Nevada, Yosemite, Bridalveil Falls, and countless other falls in the amazing 2017 Spring. The dogwoods were in full bloom too. We also visited Hetch Hetchy, Camp Mather, and Evergreen Lodge on the way home. We traveled about 20 miles by bike and 20 miles in hikes. Great getaway, and we thought it could be an annual event. Tom White, Bob Frey, Bill Provence, Jim Service, and Bob O'Donnell.
84. June 6, 2017: Golden Gate Park Segway tour of the eastern end of the Park with the SF Electric Tour Company. 2 ½ hours, (with ½ hour training) 7.5 miles starting and ending at the Spreckels Band Shell. Great ride, everyone enjoyed the experience and found the Segways fun with our guide providing good commentary. We walked up to Strawberry Hill in Stow Lake afterwards, for lunch then went to the Beach Chalet for beers. Tom, Jim Petersohn, Joe, Doug, Jim Service, Dave, George, Greg and Bob O'D.
85. July 18, 2017: Hike on San Mateo County coast, first to Franklin Point, site of an 1865 shipwreck, which is located between the Ano Nuevo and Pigeon Point Lighthouses. We then hiked in Butano State Park on the Mill Ox Trail and the Little Butano Creek Trail. Total distance was about six miles. Beers were in San Gregorio at the Country Store. Tom, Jim Service, John Malone, Bob O'D

85. July 18, 2017: Hike on San Mateo County coast, first to Franklin Point, site of an 1865 shipwreck, which is located between the Ano Nuevo and Pigeon Point Lighthouses. We then hiked in Butano State Park on the Mill Ox Trail and the Little Butano Creek Trail. Total distance was about six miles. Beers were in San Gregorio at the Country Store. Tom, Jim Service, John Malone, Bob O'D
86. August 15, 2017: San Francisco walk in the Mission District, starting at the 16th and Mission BART Station, proceeding to Mission Dolores to visit the Mission and Basilica, then to Dolores Park and the Golden Hydrant (from SF Earthquake 1906 fame) and other architectural gems in the neighborhood as well as other shops and murals and colorful alleyways. We had lunch and beers at El Farolito at 24th and Mission. Total walk was about 6.5 miles. Tom, Bob Frey, John Malone, Jim Service, and Bob O.
87. Sept. 7, 2017: Marin Headlands walk from Cavallo Cove to Kirby Beach under the Golden Gate Bridge and over the headlands. Lunch was at Kirby Cove, overlooking the Golden Gate entrance to the Bay. Beers were at the Cavallo Point Resort. 6 miles total. Tom, Bob Frey, Jim Service, Jim Petersohn, Jim Stack, Mike Monroe, Andy Caughman, Jim O'Donnell and Bob O'D.
88. October 19, 2017: Bike ride from Martinez over the Benicia Bridge to Benicia. We toured the Benicia Arsenal, Commandant's House (built in 1858, now the Carters Biz Cafes) the Captain's House, now used for weddings, and then we went into Benicia to see the Train Station and railroad ferry dock, the Old Capitol, (1852) and the Museum. It was a great day of new discoveries and history plus we went 10 miles on the bikes and 2.5 miles walking. Beers were back at Martinez, at the Creek Monkey. Bob Frey, Tom, Bill, Jim Service and Bob O'D
89. Nov. 27, 2017: Joaquin Miller Regional Park in the Oakland Hills: A 5 mile hike through Oakland's "wilderness" of Monterey pines and redwoods, followed by a picnic lunch. Then traveled on Skyline Dr. to Huckleberry Botanic Regional Preserve for a 2 mile "chaser". Nice color from the hazelnut trees and we became well acquainted with sword and woodland ferns, chinquapin, rare manzanita, and of course huckleberry. A great workout after Thanksgiving and the rains. Beers afterwards in Piedmont at Cato's Ale House. Tom, Bob Frey, Jim Service, Doug, Dave Galli, Mike Monroe and friend. Unfortunately Jim Petersohn was there but we missed connections.
90. Dec. 14, 2017: Carr Ranch Loop Trail in the Moraga Wilderness area. Tinge of new grass on rolling 500 ft. hills; hiking through dense oak forests, Buckhorn Creek, vistas on peaks that went on forever. "V" shaped view of the Bay, looking down on Upper San Leandro Reservoir, the whole range of the East Bay Hills and Rocky Ridge. Challenging trail with a lot of steep ups and downs but all made it. Cheated at the end to keep it to 8 miles by climbing over several fences to traverse NO Trespassing EDMUD property down to Tom's place. Beers rewarded everyone at the "other" White House. Tom, Jim Service, Jim Stack, Mike Monroe, Brian Tulloch, Ron Rubenstein.
91. Dec. 17, 2017: Pinnacles National Park" 7.4 mile hike on the Moses Spring Loop through the Bear Gulch Cave up to the High Peaks Loop and down the Condor Gulch Trail. Spectacular scenery and highly enjoyable trek through flashlight-requiring caves, up steep and narrow rock walls aided by chiseled footholds and iron railings, a pristine mountain pond and tons of wild rock formations we were impelled to name. One of our best outings. Doug, Tom, Bob Frey, Jim Service.

San Pedro Valley Park - Hike #94 (March 2018):

Class of '64 hiking group Trips 92 thru 97 in 2018

92. Jan. 16, 2018: Walk in San Francisco starting at the Ferry Building, going through the Financial District and by the Transamerica Tower, Market St. Transbay Terminal site, Moscone Center, Yerba Buena Gardens, MLK Memorial, St. Patrick's Church, Ninth Circuit Court Building, and City Hall. We toured City Hall, then walked back down Market St. to Front St. and had beers at Harrington's Bar. Six miles. Tom, Jim Service, Joe, Vern, Doug, Greg, Mike, Jim Petersohn, Dave Galli and Bob O'D
93. Feb. 12, 2018: Monument Peak Hike. The hike began from Ed Levin Park and headed up the steep and challenging trail 7.5 miles to the summit. There were beautiful clear views on this winter day with a great chance for photography. Doug, Jim Service, Bill and Bob Frey. Lunch was on top and Beers down below. More detail will come later.
94. March 26, 2018: San Pedro County Park in Pacifica. We did a "Trifecta" hike, first the Valley View Trail, then the Huckleberry Trail, and then a portion of the Brook Falls Trail for a total of 9 miles and 1,700 ft of altitude gain. We had clear blue skies and great vistas on the hillsides. Lunch was in the park and beers were at the Devil's Slide Tap Room in Pedro Point. We had an all time high of FOURTEEN, a great turnout! Bob Frey, Jim Service, Tom White, Jim Petersohn, Jim Reed, John Malone, Dave Galli, Doug Falco, Bill Provence Vern Whitman, Andy Caughman, Jim and Dave and Bob O'Donnell
95. May 10, 2018: Rocky Ridge Cancelled and Kings Canyon Loop Trail on San Leandro Reservoir in Moraga substituted. 8+ miles. We started on the Rocky Ridge Trail for about a mile before the trail became overgrown with spring grasses and a tick attack started especially aimed at Jim Service's light blue Levis. 35 ticks and counting (but no penetration). We smartly decided to abort and go to Plan B, with a repeat of the # 9 hike we did on October, 2009 (which Bob Frey didn't hike and Jim didn't remember). 8 miles plus in all with lots of green hills, wildflowers and total isolation, especially by the lake. Beers followed at the Other White House. Tom, Jim Service, Bob Frey
96. May 31, 2018: Mt Umunhum hike where we met at Sierra Azul Open Space Reserve trail head and hiked to the top of Mt. Umunhum. We were surprised by the views and the plaza and improvements on the recently open top of the mountain. It had been a USAF site during the Cold War and only opened in Sept. 2017. We also did a short hike to Bald Mountain, had our beers on the trail and called it a day. Tom, Jim Service, Doug, Pete, Dave and Bob O'D. Six miles total walking.
97. June 25, 2018: La Honda Creek Open Space Preserve: We walked 7.1 miles in this newly opened reserve, part of the Mid Peninsula Open Space Preserve. Elevation gain of about 1,500 ft over rolling hills and open vistas on an overcast day, but pleasant for hiking. Beers were to be at Apple Jack's but it was closed on Monday so Plan B was to buy beer and enjoy them in the La Honda Redwood Grove which was beautiful. Tom and Jim Stack walked an additional mile or two down Memory Lane, reminiscing about their summers in La Honda, all good. Jim Service, Tom, Dave Galli, Vern, Jim Stack, Jim Petersohn, Mike Monroe and Bob O'D

Class of '64 hiking group Trips 98 thru 101 in 2018 cont.

98. July 19, 2018: Hike around Lake Merced in San Francisco, starting and ending at the Harding Park Clubhouse. We visited the Broderick/Terry Duel site in Daly City and also the Fort Funston Hang Glider site. Lunch was at a Lake overview, and beers were at the Cypress Grill at Harding Park. Joe provided a nice written commentary on the Duel site and Lake Merced. 7 miles total travel. Bob Frey, Tom White, Joe Higgins, John Malone, Greg, Boyden, Ken Hoegger, Dough Falco, Jim Stack, Jim Service Dave and Bob O'Donnell
99. August 25, 2018: Treasure Island Tour: The original plan was to ride over the new Bay Bridge bike lane from Yerba Buena Island to Emeryville, but island construction and parking issues prevented this. So we did a tour of Treasure Island instead, traversing old and new areas including the SFFD training facility and the original Terminal Building (and now museum) of the 1939-40 World's Fair. We had lunch on the Island and beers at the local restaurant. 8.5 miles total, all on the level. Tom, Jim Service, Doug, Glenn, John, Greg, Bill, George, and Bob O'D
100. Oct. 1, 2018: Golden Gate Bridge Trek. We had a big group of 14, for this milestone trek. We started at Fort Winfield Scott in the Presidio, walked to the Toll Plaza and across the span, visited the Vista Point in Marin and proceeded up to the Marin Headland view point of the North Tower of the Bridge. We had beautiful views, and great stories about Jim Reed and Ken Hoegger both having been on top of the North and South Towers respectively, also Gary Souza's amazing stories of being on the underside of the Bridge, (you will have to ask him for details), and Dave's account of the very worried engineering staff during the 50th Anniversary Walk back in 1987 when the weight of the multitude on the bridge roadway flattened the arc of the bridge and sent them into real worry and frantic calculations about live loads etc. After lunch, we walked back south, visited the Welcome Center near the Toll Plaza and then retired to the Beach Chalet to rehydrate (beer!) and recap the day and celebrate the 100th Trek. It all started in January, 2009. It has been quite a walk so far! Everyone is up for starting the next 100 treks as soon as possible. Tom White, Jack Savage, Jim Service, Greg Boyden, Bob Frey, Dave Galli George and Andy Caughman, Jim Reed, Jim Petersohn , Gary Souza, Hen Hoegger, Joe Higgins, Jim and Bob O'Donnell
101. Oct. 29, 2018. City walk organized by Ken. We started at the Sunnyside Conservatory on Monterey Blvd. then went over to the Diego Rivera Pan American Mural at City College, visited the old "Riordan Reservoir" to look at its proposed development, then climbed around Mt Davidson and made the ascent of Twin Peaks where we had a great view for lunch. It was a very clear day, with Diablo, Tamalpais and the Cityscape all in sharp view. We then descended down through Glen Canyon Park and noted the site of the 1868 Alfred Nobel dynamite factory. It exploded in 1869 and was relocated to Pinole. Amazing! Beers were at Le P'tit Laurent in Glen Park. Ken, Tom, Bob Frey, Jim Service, Jim Stack, Vern, Jim Petersohn, Andy C. Joe Higgins, and Bob O'D

Class of '64 hiking group @ Lake Merced (July 2018):

Class of '64 hiking group Trips 102 thru 105 in 2019

102. January 31, 2019: Jack London State Park in Glen Ellen. We met at 10 AM at the Jack London State Park and began with a visit to the London cottage area and ranch out buildings. We then took the trail up to the Lake and Deer Camp, came back for lunch and then proceeded to the Stone House of "Happy Walls" and its London exhibits. From there we took the trail to the London Grave site and the remains of Wolf House, their showcase home that burned in 1913 shortly before its completion. Approximately 9 mi. total. Because of the distance and the time we spent on site, we did not stop for beers. (That is a first!). All hikers are honor bound to have a beer at home to celebrate this trek. Tom White, Jim Service, Greg Boyden, Bob Frey, John Malone, Bill Provence, Jim Stack, Ken Hoegger, Joe Higgins, Jim Petersohn, Bob O'D

103. February 19, 2019: Mt. Tamalpais: We started at Mountain Home on the Panoramic Highway and took trails climbing west to a beautiful overlook at Forbes Bench of the Pacific Ocean, Golden Gate Straight and the Bay Area. It was a spectacular, clear day and the views were World Class. We then walked back via the Mountain Theater and West Point Inn to Mountain Home where we had beers and savored the view yet again. Total distance was 8 1/2 miles. Tom White, Bob Frey, Ken Hoegger, Mike Monroe, Bill Provence, and Bob O'Donnell

104. April 1, 2019: Pt. Reyes National Park: We met at the Bear Valley Visitor Center and took the Mt. Wittenberg Trail to 1,407 ft. peak, the highest in Park and had lunch overlooking Drakes Bay and Chimney Rock Peninsula. The return trail was the Meadow Trail back to the Visitor Center. 5.1 miles. Light rain started just as we returned to the cars - good timing! We then retired to Pt. Reyes Station for beers at the Old Golden Western Saloon. Tom White, Jim Service, Vern Wittman, Ken Hoegger, and Bob O'Donnell

105. June 26, 2019: Contra Costa Canal Bike Ride: We met at the Heather Farms Park Swim Center in Walnut Creek and rode the Canal trail for a total of 15.5 miles into Concord and back. It was a beautiful day, temps in the low 70's, slight breeze and virtually all flat. We joked about an elevation gain of 32 feet. Beers and lunch were in Walnut Creek at the Herr Brewing Company. Tom, Bob Frey, Glenn, Greg, Dave and Bob O'Donnell

(July 2019)**

Class of '64 hiking group Trips 106 thru 109 in 2019

- 106. July 30, 2019: San Francisco Walk:** We began at the MOMA, viewing the 107 ft. By 16 ft. digital mural display by JR, then walked through Yerba Gardens to St. Patrick's Church, then on to the California Historical Society to view their two photograph exhibits depicting the Transcontinental Railroad, (150th Anniversary on May 20, 2019). We then walked to the Salesforce Tower, visited the 61st floor Ohana Observation Level, thanks to Bob Frey's contact with Nina, and then walked around the Transit Center Roof Garden. We then walked to Pier 23 on the Embarcadero for lunch and beers. The group included: Tom White, Bob Frey, Dave Galli, Jim Petersohn, Doug Falco, Joe Higgins, Greg Boyden, Vern Wittman, John Malone, Jim Service, Joe Rodriguez, Jim Stack, and Bob O'Donnell. We walked a total of 6 miles. Great day all in all, welcome to Joe R. for joining us!
- 107. August 18, 2019: Alamere Falls, Point Reyes National Park,** a repeat of our very first walk as the group stated with this walk to Alamere Falls on January 14, 2009! We met today at the Palomarin Trailhead and took the five mile trail into Alamere Falls, passing the chain of lakes along the way. Skies were overcast, but it was nice hiking weather and the falls were full and free flowing. We had lunch at the falls, then proceeded back to the trail head and drove to Stinson Beach for beers at the Sand Dollar Restaurant. Total distance was 10 miles. Tom White, Jim Service, Joe Rodriguez, Jim Service and Bob O'Donnell
- 108. Sept. 25, 2019: Wilder Ranch State Park,** on the coast north of Santa Cruz City limits, where we started at 10 AM. We walked on Old Cove Landing Trail to Fern Grotto Beach and north to Strawberry Beach where we had lunch. It was a beautiful day with great views of the ocean and sea life. We then doubled back to the parking lot, and headed to the Cultural Preserve area and had our "root beers", after all this is a State Park. We then toured the farm buildings, machine shop and garage. The Ranch dates to the 1860's and became a part of the Park system in 1974. The walk was about 7 miles total. Tom, Bob Frey, Ken, Jim Service, Jim Petersohn, Dave Galli, Doug Falco, Dave, Jim and Bob O'Donnell
- 109. December 9, 2019: Briones Regional Park, Lafayette.** We did a 5.5 mile loop including the Springhill, Lafayette Ridge, Briones Crest, Sunrise, and Buckeye Ranch Trail.s Overall elevation gain about 1300 ft. Despite low clouds and fog the views did materialize and we all thought this would be a great hike for spring some year after the trail dried out and the hills greened up. The views of Mt. Diablo would be wide open. It was a great workout for thighs and quads. Beers at El Charro in Lafayette. Tom, Bob Frey, Jim Service, and Bill Provence.

Class of '64 hiking group Trips 110 thru 112 in 2020

- 110. January 6, 2020: Secret Staircases of Oakland.** We started at the 3 acre Kaiser Center Rooftop Garden to clear the head and proceeded to the Cathedral of Light to see Bob Frey's handiwork from years ago when he helped build this impressive structure, to get some divine guidance for the upcoming orienteering challenge ahead of us, and sober ourselves in the surprisingly airy mausoleum underneath the church. From there we headed up into the Oakland/Piedmont foothills following a twisted course through quiet, well kept neighborhoods, successfully finding all the hidden staircases, had lunch at the old quarry that became the Oakland Davie Tennis Stadium in 1931, and up and down stairs back to circle half of Lake Merritt. A 7 mile hike with the equivalent of climbing 69 stories (think Sales Force Tower). Another good workout for quads and thighs. Beers after at Modern Times (aka Barbie's Brewskis), a new hot pink and turquoise successful brew pub from San Diego. Jim Service, Bob Frey, Vern, and Tom.
- 111. February 18, 2020: Rocky Ridge Trail, Moraga.** A tough 8 mile hike with an elevation gain of nearly 2000 ft but we were totally rewarded with spectacular views from two major hilltops. We had to restrain Jim from twirling around with his arms outstretched singing "the hills are alive". 50 shades of green as far as you could see. We could even see SF Bay in the far distance. No one on the trail! A taste of what the East Bay looked like before development. Totally alone and silent despite being surrounded by over 7 million people (could have fooled us). At least 1100 calories burnt, before beers in Rancho Laguna Park. Not a bad accomplishment for 73 and 74 year olds! Jim Service, Bob Frey, and Tom.
- 112. September 30, 2020: Huddart Park/Phleger Estate.** After a 7 month quarantine from the Coronavirus, a small group tested the waters on an outdoor, socially distanced hike on the Peninsula. This 4+ mile hike through the redwoods began in Huddart Park near Woodside. Starting on the Crystal Springs Trail, we continued to the Miramontes Trail into the Phleger Estate, both old redwood logging areas. After 2 miles we retraced our path back to the picnic area for beers. A warm day but avoided the heat in the shade of redwoods. Doug Falco, Jim Service Bob O'Donnell, Bob Frey and Tom.

Class of '64 hiking group Trips 113 thru 114 in 2020

113. November 5, 2020: Sweeney Ridge. We celebrated the 251st anniversary, one date late, of the discovery of San Francisco Bay by the Portola Expedition. (November 4, 1769). We had hiked to the ridge on our 8th hike in Sept 2009 from the east side, but this time we started from Pacifica on the Baquiano Trail. A spectacular day, warm and great views of a clear coast and the Linda Mar Cove looking like Cinqueterre. Despite some damage to the monument at the top because Portola is claimed to have begun the eventual eradication of the native peoples in the area, we had lunch and enjoyed the view of a Bay covered with a low layer of fog and a beautiful Pacific coast. Beers followed at, believe it or not, Taco Bell on the beach at Linda Mar. Felt like a beach town in Mexico as we relaxed with Modellos, laid back on the deck in the sun, watching surfers catch waves. About 4+ miles. Doug, Jim Service, Bob O'Donnell, Tom.

114. December 10, 2020. We celebrated the end to a crazy year by a challenging hike to the top of Mt. San Bruno starting from the Montessori School in SSF. Total elevation gain over 1000 ft and the trail was definitely steep most of the way. An impressive feat. We were rewarded with excellent views of the Peninsula, Coastal Mountains, East Bay and City. Weather was terrific. Little wind, lower strata of fog at times, no people to speak of. After lunch at the summit we successfully made our descent and had beers in the stands of the ballpark at the bottom of the trail. Our small group of 3, equipped with masks and keeping appropriate social distancing made this a Covid compliant hike. 6 miles in total. Bob O'D, Jim Service, Tom (same group that did Hike #1 Jan 14, 2009 nearly 12 years ago!)

Class of '64 hiking group Trips 115 thru 119 in 2021

115. January 13, 2021. Phoenix Lake. Starting from the Deer Park Trailhead just outside of Fairfax, we hiked the Shaver Grade Road to Phoenix Lake at the base of Mt. Tamalpais. After lunch on the dam, we circled the lake and headed back via the Hidden Meadow and Six Points Trail. A beautiful day and warm for January. The views from the ridgeline at Six Points were impressive. Lots of redwoods, ferns and forest. 10 miles in total (instead of the planned 7 miles) because of two missed trail markers and some backtracking. Celebrated Jim's big 75th Bday with beers in the picnic area at the end of the hike. Bob O'D, Jim Service, Tom. (Group still small due to Covid.)
116. February 17, 2021. Pacifica Triad. We hiked Mori Point, Milagro Ridge and Mussel Rock overlook. 5.5 miles in total. Stellar day with unlimited visibility and warm for February. Green hills and great ocean views from cliffs and mountain ridge. Lunch at old WWII gun emplacements and beers overlooking Mussel Rock. Bob O'D, Jim Service, Doug and Tom.
117. March 25, 2021. Briones Park. We hiked the Abrigo Trail up to Mott Peak and back down the Briones Crest Trail. 50 shades of green. Wildflowers just starting so a limited show but beautiful day with unobstructed vistas. Jim attempted to capture the coyote (on film) that was threatening to interrupt our beers in the park at the end of the climb. 5 miles in all with a 650 ft elevation gain. Bob O'D, Bob Frey, Jim Service, Doug and Tom.
118. April 27, 2021: Russian Ridge. We did a loop hiking the Russian Ridge, Hawk Ridge, and Ancient Oaks Trails. Beautiful clear weather and the best wildflower display of all hikes: poppies, lupine, buttercups and many others. View from Borel Hill presented a 360 view of the Bay Area: Mt Tamalpais, Diablo, Hamilton, the Bay, Mt Umunhum, the Monterey peninsula, coastal redwood preserves, and the Pacific. Spectacular! Doug hosted and provided the customary beers following at Alpine Pond picnic area. Total of around 7 miles. A welcome return to semi normalcy with a group of 9 again: Doug Falco, Bob O'Donnell, Bob Frey, Jim Service, Jim Petersohn, Dave O'Donnell, John Malone, Ken Hoegger, Tom White.
119. June 23, 2021: Portola Redwoods State Park: First hiked on the Old Tree Trail to have a photo op at a 1200 year old redwood that the 7 of us standing side by side equalled its diameter. Then off on the Iverson and Pomponio Trails into Pescadero Creek County Park for lunch. Foiled by a major bridge downed by a giant redwood during the 2020 lightning storms and fires. Then back to Park Headquarters for beers under the redwood canopy, Jim S providing each of us with surprise gelatinous globules in each bottle. 6 miles total on a perfect day in the redwoods. Jim, Dave and Bob O'D; Doug, Jim Petersohn, Jim Service, and Tom

Class of '64 hiking group Trips 120 thru 124 in 2021

120. July 15, 2021. Baker Beach Loop, San Francisco. A good thigh and aerobic workout on the kind of summer day we remember growing up with in SF: foggy and blustery. Looped the Lobos Creek Trail before climbing through the sand and pines to the Anza Trail to Immigrant Point, then down to the World War II Memorial at the Golden Gate Bridge Overlook and on to the Batteries to Bluff Trail that worked its way down steps to Marshall Beach. Stunning views of Golden Gate Bridge from beach none of us had ever been on. Back up steps and eventually back to Baker Beach via Battery Chamberlain with the Invisible Gun. A bit over 5 miles total with beers in sheltered grove behind beach dunes. Jim(s) O'D, Stack, Petersohn, Service (not a lot of creativity with names in the late 40's), Doug, Greg, Bob O'D, Vern, and Tom
121. August 26, 2021: San Francisco Bay Trail Bike Ride: Berkeley Marina to Richmond. 20 miles in total. Beautiful warm day by the Bay with clear, albeit hazy skies due to the fires in the Sierras. Primarily a flat paved ride except for our ad hoc diversion to the Albany Bulb; some off roading and hills on a Bay peninsula, but rewarded with a unique sculpture garden ala the one that used to grace the Berkeley mudflats. We particularly fell for our new Medusa goddess best friend. We'll never see Richmond the same as we passed million dollar homes and yachts in the Marina Bay development before touring the Rosie the Riveter museum. Lunch outside the museum with views of the City and bridges. Beers after in park at the Berkeley Marina. Jim Stack, Ken, Jim Service, Bob Frey, Tom.
122. September 28, 2021; Fitzgerald Marine Reserve to Pillar Point via Bluffs Trail; Beautiful clear fall day for a nearly 8 mile hike along the ocean bluffs overlooking the Half Moon Bay area. From Fitzgerald parking lot we hiked out to Pillar Point, viewing Mavericks surfing area and then into Princeton Harbor for lunch and beers at the Half Moon Bay Brewing Company. Checked in with the ladies at the nun's retreat house coming and going. While we hiked 3 hours they kept the deck chairs warm with drinks in hand. A throwback to 15 high school guys meeting up with 6 SF "girls". A great day. Bob, Jim, & Dave O'Donnell, Bob Frey, Jim Petersohn, Jim Stack, Jim Service, Mike Monroe, John Malone, Bill Provence, Doug Falco, Tom White, Joe Higgins, Ken Hoegge, Vern Wittman.
123. October 27, 2021: Riordan Tour: A tour of Riordan High School and first hand look at the new coed 2nvironment while school in session. Saw state of the art gym, work out room and football field, new engineering classroom, auditorium and had the chance to talk with administrators and students. An eye opener especially of the new learning environment where laptops and cellphones are front and center, flexibility is paramount, and student initiative and learning discipline a must. Impressive and with near all time high enrollment the need to upgrade and expand facilities is crucial. (Donations accepted.) Not our normal hike (only about a mile with an elevation gain of one story) but rewarding. Lunch afterwards at Boulevard Cafe. Bob O'D, Jim Petersohn, Jim Service, Andy and George Kaufmann, Joe Higgins, Doug Falco, Ken Hoegge, Vern Wittman, Craig Terrell, Tom White.
124. December 7, 2021: Coyote Hills Regional Park, Fremont: For most of us this was a new area to explore thanks to Jim Petersohn organizing the trek. We met at the Regional Park near the east end of the Dumbarton Bridge at 10 AM. We walked the green rolling hills of the Bayview and Meadow Lark Loop Trails, ascended one hill for the views and had lunch at the Dairy Glen camp. Total miles, 4.5. A leisurely but enjoyable walk, mostly level with great views of the South Bay, sloughs and lots of birds. But the elusive pink flamingo somehow eluded us. One noteworthy point - we had no beers! No pubs anywhere to be seen, but somehow we all survived. Jim Petersohn, Jim Service, Joe Higgins, Vern Wittman, Greg Boyden, Doug Falco, Bob Frey, Bob O'Donnell

Class of '64 hiking group Trips 125 thru 129 in 2022

125. January 31, 2022: Moraga Sampler. For our quasiquicentennial we hiked up along the Mulholland Ridge in Moraga with sweeping views of the Moraga Valley, Mt. Diablo and out to the Diablo Valley. Then lunched in Rancho Laguna Park before heading out into the East Bay Regional Watershed to the Upper San Leandro Reservoir. Nice day, green hills everywhere and isolation. A touch of Ireland. Spring wildflowers starting to bloom. Beers followed back at the park. Total mileage around 7 miles. For the 125 hikes/bikes to date we've logged over 650 miles (SF to LA and halfway back). Not bad for a bunch of guys who aged from around 62 to 75 during that time! Congrats!! Jim Stack, Mike Monroe, Bob O'Donnell, Vern Wittman, Bill Ferguson, Jim Service, Joe Rodriguez, Doug Falco, Tom White
126. February 17, 2022: Sam McDonald Park and Bean Hollow Coastal Trail: We hiked the Forest Trail/Uncle Mann Rd loop through the redwoods and along Alpine Creek. With all the ups and downs on the trail, Jim S rationalized it evened out to be a level hike. Somehow we managed to miss Sam McDonald's cabin even though we're sure we walked within a 100 yds of it. Lunch was at the Deli in La Honda after finding out the Deli in Pescadero was permanently closed and Apple Jack's Saloon only served a liquid lunch. Beers also provided. 3 of us continued on to complete the day on a shoreline hike around Bean Hollow State Beach. Beautiful weather and scenery there and legitimately a level hike. The 3.5 milers were Jim Petersohn, Doug Falco, The 6.5 milers were Jim Service, Tom and Ken.
127. March 25, 2022. Fernandez Ranch. As a spontaneous bonus hike a few of us hiked a 7 mile loop consisting of the Windmill, Woodland, Franklin Ridge, Woodrat, Whipsnake, and Black Phoebe Trails in a new John Muir Trust park in Franklin Canyon near Martinez. Beautiful day with very green hills, new oak foliage and 360 degree vistas including San Pablo Bay and rolling hills in all directions. No signs of humanity. Saw very few humans but actually saw an endangered whipsnake and black phoebes. Jim Service, Bob Frey, Tom.
128. April 5, 2022: Golden Gate Park. A group of us led by the O'Donnells took a tour of the least traveled areas of GG Park, benefiting from Bob's research and Dave's many years of service with the SFPD Mounted Patrol in the Park. From the Beach Chalet we hiked to some 20 lesser known sites and back trails including the Dutch Windmill and tulip garden, Anglers' Lodge and Casting Pools, watched a demolition derby for model motorboats at Spreckles Lake, walked the raging creek from Portals of the Past Lake to Rainbow Falls below the Prayerbook Cross, went for the view from the De Young Tower, saw the new \$26 mil courts at the Tennis Center, etc. etc. etc. One of our longest days with beers after our 8.6 mile round trip to the Beach Chalet beer garden, finishing up after 4pm. A rare beautiful, "warm" (for SF) day in the Park. Jim Service, Jim Petersohn, Bob O'Donnell, Dave O'Donnell, Jim Stack, John Malone, Andy Caughman, Doug, Tom
129. May 23, 2022: Russian Ridge. Almost an exact duplicate of hike 118 a year and a month ago. Again there were 9 of us, we did nearly the same 6 mile loop, saw the 360 degree Bay/Mtns/Ocean/redwoods views as before. Differences: maybe a bit more wildflowers this time but lots of weeds to obstruct some of the mass effect and our first rattlesnake sighting early on the hike. This fat one was snaking across the trail and seemed to want to get out of our way, fortunately. Doug got some nice pictures of the rattles. Beers at Alpine Pond following hike provided by Vern. Bill Ferguson, Vern, Doug, Jim Service, Dave O'Donnell, Jim Stack, Bing Huey, Ken, and Tom.

Class of '64 hiking group Trips 130 thru 134 in 2022

130. June 21, 2022 Muir Beach Area Hike. Eleven met on a very warm first day of Summer at Muir Beach Parking lot. Ken led the hike and we began by walking a beautiful valley and organic garden area of the Zen Center near Muir Beach. It was as pretty and peaceful as you would expect from the Zen Center. They provide produce to the Green's Restaurant at Fort Mason among others. Then the real challenge began. We hiked the Redwood Creek Trail, then the Heather Cut Off and the Owl Trail. As the heat increased, some opted at strategic points to head back to the Pelican Inn near Muir Beach where we planned to have beers. The trail was HOT, Tom Novello noted that Muir Beach was showing 88 degrees. It was a crystal clear day and the views of the north coast were beautiful, and to the south you could clearly see Mt. Sutro, Mount Davidson, San Bruno Mountain and Montara Peak, all sites of previous hikes, as well as the sweep of the coastline and Pacific Ocean. There is no cell service in the area, so as we arrived back at Muir Beach separately during the day, it took a little time to gather up but we finally had our beers and snacks (thanks to Ken!) and recounted the events of the day. I think everyone would agree on the word "challenging" to describe it. 5 miles. Ken Hoegger, Tom Novello, Jim Petersohn, Vern Wittman, Bill Ferguson, Jim Service, Jim Stack, Mike Monroe, Brian Tulloch, Joe Higgins, Bob O'Donnell
131. August 29, 2022. Presidio Tunnel Top Parks. Jim S. led us from the Presidio Golf Club down past the Goldsworthy Tower and SF National Cemetery to the westernmost Tunnel Top Park. From there we traversed past the Korean War Memorial to the eastern Tunnel Top. Beautiful clear day and the children's playground is said to have the best view in the US. Then hiked back up through the eucalyptus forest to the Presidio Golf Club for beers. Joe Higgins elevated out status by bringing along his vintage Model A. Impressive wild tract of land within a large metropolitan area. About 5 miles. Jim Service, Bing, Bob Frey, Bob O'D, Joe H, Ken, Doug, Jim Stack, Tom W.
132. October 18, 2022. Rancho San Antonio County Park. Doug led us though the former athletic fields of the defunct St. Joseph's Seminary to the Deer Valley working Farm. We then headed up the Wildcat Loop Trail to the summit with grand views of the lower peninsula. Lunch in the oaks and then descended along the High Meadow Trail back to the picnic grounds for beers. Beautiful fall day and about 5 miles. Doug, Bing, Jim S., Ken, Bill Provence, John Malone, George Kaufman, Tom, Bob Frey, Bob O'D.
133. November 21, 2022. Embarcadero from Fireboat to Maritime Museum. Started with a tour of the Fire Boat Station 22, south of the Ferry Bldg. Great tour of the original building with spiral iron staircase and new floating building with unbelievable kitchen, great room and BBQ deck directly under the Bay Bridge. Then walked along the Embarcadero to the Hyde St Pier and SF Maritime National Historic Park, getting a behind the scenes tour of the historic ships complements of our Hiking buddy volunteers. Total miles about 7. Beers followed at Capurro's. Jim Service, Bob O'D, Tom, Doug, Ken, Vern, Bill Ferguson, Bob Frey.
134. December 22, 2022. Contra Costa Canal Bike Ride. We started at Heather Farms Park in Walnut Creek and rode west along the old canal that watered the walnut orchards in the "early days". Later headed north on the Iron Horse Trail (old railroad track trail) with Christmas lunch at Lazy Dog and back to Heather Farms for beers in the park. Total miles about 17. Tom, Doug, Bob Frey

Class of '64 hiking group Trips 135 thru 138 in 2023

135. February 8, 2023 Lake Merced Loop. A near repeat of Hike #98 in July 2018 starting at the Harding Park Clubhouse. We hiked clockwise around Lake Merced stopping at the 1859 Terry/ Broderick duel site and finishing back at the Clubhouse for beers. About 7 miles. Bob O'D, Ken, Dave O'D, Jim Service, Jim Stack, Bill Provence, Bing, Doug, Vern, Tom
136. April 4, 2023. Little Yosemite Valley Hike in Sunol Regional Park. Taking advantage of the heavy rainy season we saw this area at its best. The falls were gushing and the river was roaring. /very reminiscent of the Merced River on the Vernal Falls Hike but on a miniature scale. Lot of greenery and a few wildflowers. Beautiful canyon with neat rock formations. About 5-6 miles in total. Beers in the park at the end of the trail. Jim Stack, Doug, Bob Frey, George Washburn, Tom.
137. July 26, 2023 Treasure Island Walk. A whole new world on T.I. Just a few places that were recognizable: the original Pacific Exposition building with amazing mural and small museum; and the SF Fire Academy (where several of the SFFD and DCFD alums had a walk down memory lane). The rest of the island was in redevelopment mode with buildings going up everywhere. Ultimately there will be 8000 condo units with one of the tallest ones being topped out that afternoon. <https://www.som.com/projects/treasure-island-master-plan/> A veritable City in the making of over 16,000 people all trying to merge onto the lower deck of the Bay Bridge. Can't wait. About 5 – 6 miles. Beers at outdoor patio of Aracely Cafe. Bob O'Donnell, Bob Frey, Jim Service, Jim Stack, Jim Petersohn, Joe Higgins, Tom White,
138. September 15, 2023. Russian Ridge Figure 8 hike. We took the Sunny Jim Trail to Horseshoe Lake where we lunched and then back via the Ipewa Trail. Beautiful day verging on hot for the last few miles. Alpine Pond and Horseshoe Lake were like mirrors. Beers at trail's end. Total a bit over 5 miles. Jim Service, Jim Stack, Jim O'Donnell, Bob Frey, Bob O'Donnell, Tom White, Tom Novello, Vern Wittman, Bill Ferguson, Dave O'Donnell, Doug Falco, John Malone, Ken Hoegger.

Little Yosemite Hike in Sunol 4/4/2023

Russian Ridge Figure 8 Hike 9/15/2023

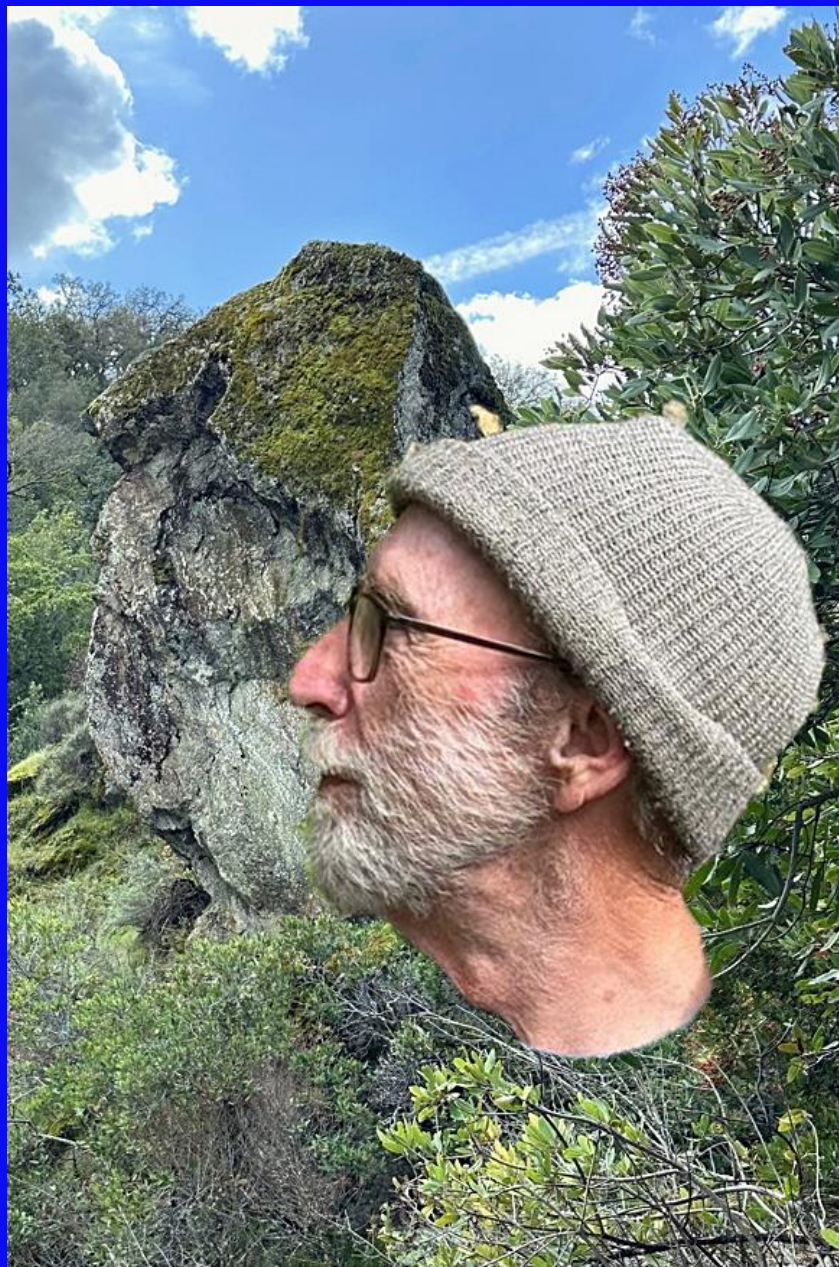

Class of '64 hiking group Trips 139 thru 143 in 2023

139. October 23, 2023 Tilden Park Loop. After rain the day before we were greeted by an amazingly clear day for the hike. We hiked up the Upper Big Springs Trail off of South Park Drive and across the Seaview Trail and returned via the Lower Big Springs Trail. At the summit we had clear views East of Briones Reservoir and San Pablo Reservoir and rolling hills up to the Delta and beyond. Even could see Mt St. Helena to the far North and Diablo to the South. To the West the Bay, San Francisco, the Golden Gate, the Peninsula, Mt Tamalpais, and Pt Molate all lay at our feet. Stunning. Sales Force Tower and Sutro Tower lined up perfectly above the new Bay Bridge towers. We ate lunch in the Padre picnic area. To achieve our 5 mile target we walked through the extensive Botanic Gardens just down the road. Beers followed on the deck overlooking the Tilden Golf Course. A great fall day. Bob O'D, Bob Frey, Jim Stack, Jim Service, Doug, Tom, Bing, Bill Ferguson, Vern, John Malone, Ken.
140. November 13, 2023. Tilden Park Part 2. For an encore to the October Hike we did a totally different hike in the park. From Lake Anza we hiked down the Wildcat Gorge Trail along the creek under arching bays, oaks, and big leaf maple. Then up the Meadows Canyon Trail and down the Curran Trail. After lunch we walked around Lake Anza followed by beers in the Park near the lake. Smattering of fall colors especially from our official Hiking Group flower: poison oak. The deep reds would make a great Thanksgiving centerpiece. Total about 4.5 miles. Bob O'D, Doug, Jim Service, Tom.
141. December 15, 2023: Computer Museum and Shoreline Nature Preserve. Mindboggling! We spent 2 ½ hours going through this museum housing everything from pre abaci calculating instruments to A.I. Easily could have been a full course required of all entering EE students. Doug and Service were in their element, the rest of us overwhelmed. Hardly touched the surface. After lunch we took a 4 mile hike around the Shoreline marsh area and visited the Gradient Canopy, actually 2 architectural wonders on the Google campus. Beer on the deck of the clubhouse at the Golf Course. Bob O'D, Jim Service, Doug, Tom, Jim Stack, Ken.
142. March 4, 2024: Little Yosemite Valley, Sunol Regional Park. Back by popular demand, a repeat of last April's hike. With abundant rainfall up to the day before, there was even more water rushing in Alameda "Creek" than last year (which we thought could not be beaten). Another beautiful day and hike in which we found a monolithic rock that was Jim Service's spitting image, captured cleverly by Doug's magical camera. We returned after lunch via the Canyon View trail, a single track high above the canyon with beautiful Ireland green views. Beers in the park at hike's end. 5.5 miles. Bob O'D, Jim Service, Jim Stack, Doug Falco, Greg Boyden, Bill Ferguson and Tom
143. April 2, 2024: Fernandez Ranch A repeat of a late March 2022 hike off Hwy 4 near Martinez. Beautiful spring day with decent wildflower show, notably the Mediterranean Storksbill (thanks Doug), poppies, Blue Dick, wild radish, and ample buttercups. From the ridge you could see Mt Tamalpais and San Pablo Bay and wilderness in all directions. Green rolling hills and multiple forms of oak all leafing out made for easy on the eyes scenery. Lunch on trail entertained by Black Phoebes (birds, that is), finishing off with ers in the picnic area at trail's end. 6 miles total.. Jim Stack, Jim Service, Doug, Bob O'D, and Tom.

Career: I had a 29 year career with the Daly City Fire Department, beginning as a Firefighter in 1972 and retiring as Fire Chief in 2001. I also served on two Boards of Directors, Mercy High School Burlingame, and Rebuilding Together Peninsula.

Other Activities: I enjoy photography, travel, woodworking, bike riding, and hiking (our trek group has done 107 hikes in the Bay Area since 2009). I also volunteer at the SF Maritime Museum at Hyde St. Pier, and for Second Harvest and at our Parish, St. Peter, in Pacifica.

Final Comment: I am very grateful for my past experiences at Riordan and especially for the ongoing friendships with my fellow classmates. Can it really be 60 years?!

This is an offbeat photo, taken for a newspaper article about the demolition of the old Corpus Christi church. Tom White and I were at recess and decided to sneak over to the demolition site and check things out. There happened to be a photographer there and asked us to stand at a certain spot so he could compose the picture. You'd never see young children walking freely at a demolition site today. It was a different era...

Taken in April 2011 with Ferguson, Hoegger, Kosta and Wittman doing Hurricane Katrina repairs in New Orleans. One of many trips we took to help with reconstruction.

Career:

I went to work for Pacific Gas and Electric Company after graduating from CCSF and retired from the company after 38 years of service. I retired as a Senior Human Resources Advisor, spending almost 25 years working in various jobs in HR. My service at PG&E was interrupted by a 2 year stint in the US Navy. Upon returning to work after my Navy service, I started night school at SF State, getting my Bachelor's Degree 8 years later.

Other Activities:

The thing I am most proud of was helping to open a group home for young adults with severe multiple disabilities in 1992. The home is still operating and is one of the few in San Mateo County. I volunteer for Rebuilding Together Peninsula (thank-you Bob O'Donnell) and enjoy helping friends and family with fix-it-projects. I still play guitar, not as well as I used to, and help out with the grand kids as needed.
